

# Shortcode integration

## Member list

Insert shortcode [fmr\_users] to any page.

It will display members. The dialogue opens if you click on the avatar.

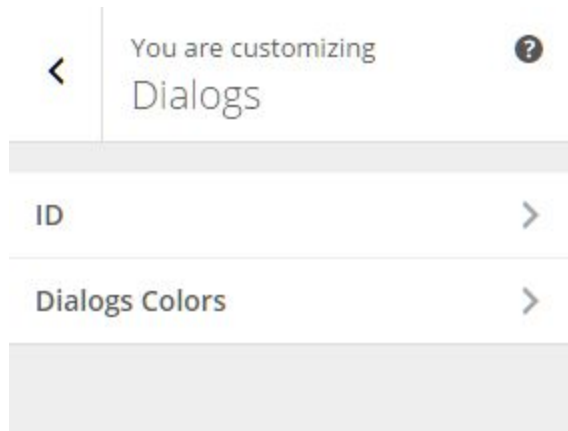

## Js integration:

Add js call “privateOpen(ID);” (where ID is id of user with whom you wish to contact) anywhere in your theme.

## Settings:

For change colors and other go to Admin > Customizer > Dialogs

- 1) **ID** you can set id of user who will be displayed to all peoples in right panel
- 2) **Dialogs Colors** change colors.
